The authors of *The Home Edit* and stars of the Netflix series *Get Organized with The Home Edit* teach you how to apply their genius, holistic approach to your work life, on-the-go necessities, and technology. At home or on the go, you don't have to live like a minimalist to feel happy and calm. The Home Edit mentality is all about embracing your life—whether you're a busy mom, a roommate living with three, or someone who's always traveling for work. You just need to know how to set up a system that works for you. In the next phase of the home organizing craze, Clea Shearer and Joanna Teplin go beyond the pantry and bookshelf to show you how to contain the chaos in all aspects of your life, from office space and holiday storage to luggage and pet supplies. Get to know your organizing style, tailor it to your family's lifestyle, and lead the low-guilt life as you apply more genius ideas to every aspect of your life. Clea and Joanna are here to remind you that "it's okay to own things" in the quest for pretty and smart spaces. With *The Home Edit Life*, you'll soon be corralling phone cords, archiving old photos, arranging your phone apps by color, and packing your suitcase like a pro.

- The game-changing author of *Tribe of Mentors* teaches you

how to reach your peak physical potential with minimum effort. "A practical crash course in how to reinvent yourself."—Kevin Kelly, *Wired*

Is it possible to reach your genetic potential in 6 months? Sleep 2 hours per day and perform better than on 8 hours? Lose more fat than a marathoner by bingeing? Indeed, and much more. The *4-Hour Body* is the result of an obsessive quest, spanning more than a decade, to hack the human body using data science. It contains the collective wisdom of hundreds of elite athletes, dozens of MDs, and thousands of hours of jaw-dropping personal experimentation. From Olympic training centers to black-market laboratories, from Silicon Valley to South Africa, Tim Ferriss fixated on one life-changing question: For all things physical, what are the tiniest changes that produce the biggest results? Thousands of tests later, this book contains the answers for both men and women. It's the wisdom Tim used to gain 34 pounds of muscle in 28 days, without steroids, and in four hours of total gym time. From the gym to the bedroom, it's all here, and it all works. You will learn (in less than 30 minutes each):

- How to lose those last 5-10 pounds

(or 100+ pounds) with odd combinations of food and safe chemical cocktails • How to prevent fat gain while bingeing over the weekend or the holidays • How to sleep 2 hours per day and feel fully rested • How to produce 15-minute female orgasms • How to triple testosterone and double sperm count • How to go from running 5 kilometers to 50 kilometers in 12 weeks • How to reverse "permanent" injuries • How to pay for a beach vacation with one hospital visit And that's just the tip of the iceberg. There are more than 50 topics covered, all with real-world experiments, many including more than 200 test subjects. You don't need better genetics or more exercise. You need immediate results that compel you to continue. That's exactly what The 4-Hour Body delivers.

Written by a professional dog whisperer and dog owner, the South African Boerboel Complete Owner's Manual has the answers you may need when researching this powerful breed that belongs to the Guardian category. Learn about this large-sized, imposing-looking dog from South Africa that was traditionally bred as a working farm dog and find out whether this intimidating dog, that has been banned in some countries, will be the best choice for you and your family. Learn everything there is to know, including little known facts and secrets and how to care for every aspect of the South African Boerboel's life. This manual contains all the information you need, from birth to the Rainbow Bridge, including transitioning through house breaking, care, feeding, training and end of life, so that you can make a well-informed decision about whether or not this dog is the breed for you. The Betta Fish or Siamese Fighting Fish hails from the Mekong basin and has featured in fish tanks and bowls for centuries despite its reputation for aggression. Today there is a wide range of colours and tail and fin shapes to delight the aquarist, and these fish are also bred very successfully in captivity, including by hobbyists. This book will introduce you to these fish by looking at the different types, discussing their appearance and biology, typical Betta Fish behaviour, their feeding requirements, and what makes these elegant fish both fascinating and unique. It will also tell you what you need

to know in order to decide whether or not this is the pet for you and, if it is, where to buy one, how to select your Betta Fish, what you need to buy before you bring it home, and how to take proper care of it. The hobbyist must know what these fish need with regards to their environment. All the necessary equipment and water and other parameters are examined as the quality of the water and the general environment has a crucial bearing on the health and happiness of Betta or Siamese fighting fish. Like all fish, the Betta is unfortunately susceptible to a number of different types of bacterial, parasitic and fungal infections and infestations. Anyone who is serious about having a fish and a tank needs to know what to look for and how to deal with common fish ailments. This book also contains helpful information on their mating behaviour, spawning and on caring for the hatchlings or fry for those who are interested in breeding Bettas. Other areas of discussion are how to prevent fights between fish and which other species are compatible so you don't have to deal with aggression and the injuries and stress which inevitably follow fights or bullying. Covered in this book: - The basics - Choosing the right fish - Social behaviour - Buying - Equipment needed - Setting up the aquarium - Water & other parameters - Daily care - Feeding - Health - Breeding - Prices and costs and much more Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it 's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. Sailing Made Easy
F & S Index United States Annual

MICHELIN Guide New York City 2013 helps both locals and travelers find great places to eat and stay, with obsessively-researched recommendations to more than 800 restaurants and 60+ hotels. This guide, updated annually, appeals to all tastes and budgets. Local, anonymous, professional inspectors carefully select restaurants, using the celebrated Michelin food star-rating system. The MICHELIN Guide is not a directory—only the best make the cut, so readers can feel confident in their choices.

Sailing Made Easy is the first step in a voyage that will last you the rest of your life. It is a gift from a group of dedicated sailing professionals who have committed their lives to sharing their art, their skill, and their passion for this wonderful activity. This book, which Sailing Magazine called "best in class" upon its release in 2010, is the most comprehensive education and boating safety learn-to-sail guide to date. It is also the official textbook for the ASA Basic Keelboat Standard (ASA 101). Incorporated in the textbook are useful illustrations and exceptional photographs of complex sailing concepts. The text's most distinguishing feature is its user friendly "spreads" in which instructional topics are self-contained on opposing pages throughout the book. There are also chapter end quizzes and a glossary to help those new to sailing to navigate their way through the extensive nautical terminology.

Get the eBook version free when you buy the Paperback The iPhone XR can be considered the most beautiful device with the six colors it is designed in: white, black, blue, coral, yellow, and red. Based on the experience of many countries in the WHO European Region and the advice of experts, this guide outlines some of the steps prison systems should take to reduce the public health risks from compulsory detention in often unhealthy situations, to care for prisoners in need and to promote the health of prisoners and prison staff. This requires that everyone working in prisons understand how imprisonment affects health, what prisoners' health needs are, and how evidence-based health services can be provided for everyone needing treatment, care and prevention in prison. Other essential elements are being aware of and accepting internationally recommended standards for prison health;

providing professional care with the same adherence to professional ethics as in other health services; and, while seeing individual needs as the central feature of the care provided, promoting a whole-prison approach to care and promoting the health and well-being of people in custody.
