At the age of just 19, JW Murphey didn't have access to large amounts of private security industry experience, a bunch of cash, an eBook or the Internet to help him start his security guard company. But, he didn't want to spend years as another cog inside of a large security corporation. Instead of staying employed with a big corporation, he struck out on his own and started his own security agency. Now, in its 4th edition, published by The Security Officer Network, the popular How to Start a Security Guard Company book includes Murphey's creative strategies for building a private security agency with a minimal up-front investment. This isn't another generic "how to form a business" book. You will easily find a plethora of free resources on the Internet where you can learn business startup basics. This book won't waste your time repeating this information; instead, readers receive immediately actionable advice that's specifically tailored to the private security industry. Written by an author who actually started his own agency, the book details his innovative approaches and strategies; imparts instruction on quantifying the cost of providing security services; gives tips for under bidding and competing against the big security companies; details tricks to minimize overhead and keep costs low and much, much more. Constantly updated and relevant, with the most recent update made in December of 2017, the book includes an array of helpful, must-have resources including a private security business plan and numerous free-to-use forms and templates.

The world of law and investigations are truly a wonderful marriage. The author felt that over fifty years ago, as he walked up the steps of the Los Angeles Police Academy, when he first entered into a career in law enforcement. Jim, as he prefers to be called, enjoyed this new world and endeavored to learn everything he could about it. During his career, Jim attended 88 investigative training programs and completed 38 law enforcement related correspondence courses. In his spare time, he managed to obtain his Associates in Arts Degree in Police Science and his Bachelors of Science Degree in Criminal Justice Administration. Today, he is a District Court Certified Forensic and Fingerprint Expert; and has held a California State Private Investigators License for over 40 years. Jim has taught Crime Scene Technology to law enforcement officers throughout the United States. In his giveback to those who want to enter into the field of law enforcement, or private investigation, he wrote his Manual. Come with him into this new world, and give back to your community through knowledge and practice of what you learn within the covers of this book. The healthcare industry is under privacy attack. The book discusses the issues from the healthcare organization and individual perspectives. Someone hacking into a medical device and changing it is life-threatening. Personal information is available on the black market. And there are increased medical costs, erroneous medical record data that could lead to wrong diagnoses, insurance companies or the government data-mining healthcare information to formulate a medical ' FICO ' score that could lead to increased insurance costs or restrictions of insurance. Experts discuss these issues and provide solutions and recommendations so that we can change course before a Healthcare Armageddon occurs.

This text focuses on the morals legislation in Nevada. The state of Nevada has made gambling legal, fostered quick marriages and divorces, and in the majority of counties legalized prostitution. Conversely, it still maintains strict marijuana laws, a state-wide lottery is prohibited, and prostitution in Las Vegas is illegal. The authors view this dichotomy as laws being based on economic factors rather than moral factors.
